Spaces fill up quickly, so register now to avoid disappointment!

Course Details:

Fundamentals Enhanced is a prerequisite for the CAPCE Program. Not all learners will go on to take the CAPCE program, however this is an opportunity to learn more about the role of the CAPCE Resource Nurse.

Objectives:

- To provide support and guidance for nurses to utilize their skills and palliative knowledge more effectively
- To learn from the experiences of practiced hospice palliative care leaders in a relaxed, safe and informal learning environment
- To discuss possible future learning opportunities

Other things to Note:

- Attendees must have completed the Core Fundamentals program, prior to the start of the Enhanced program.
- Applicants who have completed the "Classic" (8-session) Fundamentals HPC program (before September 2015), will require additional reading materials for the Enhanced stream, which will be provided at no cost. Also, applicants will be asked to provide proof that they have completed the Fundamentals of HPC program.

We look forward to seeing you soon - for more info. please contact us:
